SHIPPING & DELIVERY POLICY

1. Service Area

VoltEdge Electronics ships orders to valid residential and business addresses in the 50 U.S. states and Washington, D.C. Orders cannot be delivered to freight-forwarding companies. Some high-value orders may require an adult signature at delivery when noted during checkout or in the shipping confirmation email.

2. Order Processing Time

Orders placed before 2:00 p.m. Central Time on a business day normally enter processing the same day. Orders placed after 2:00 p.m. Central Time, on weekends, or on U.S. federal holidays begin processing on the next business day. Standard in-stock orders normally leave the warehouse within 1 business day. Orders that require manual payment or address review may take up to 2 additional business days before shipment.

3. Shipping Options and Prices

Standard Shipping costs $6.95 and normally arrives 3–5 business days after the order ships. Expedited Shipping costs $14.95 and normally arrives 2 business days after the order ships. Next-Business-Day Shipping costs $29.95 and normally arrives 1 business day after the order ships.

Delivery estimates begin after the package leaves the warehouse, not when the order is placed. Business days are Monday through Friday, excluding U.S. federal holidays. Carrier delays caused by severe weather, regional disruptions, or unusually high package volume may extend these estimates.

4. Free Shipping

Orders with a merchandise subtotal of $75.00 or more qualify for free Standard Shipping. The merchandise subtotal is calculated after promotional discounts and before sales tax. Expedited and Next-Business-Day services do not become free when the order exceeds $75.00. If a return causes the kept merchandise total to fall below $75.00, VoltEdge does not retroactively charge the original Standard Shipping fee.

5. Tracking

When an order ships, VoltEdge sends a shipping confirmation email containing the carrier name and tracking number. Tracking also appears on the “Orders” page for customers who checked out while signed in. Tracking events can take up to 24 hours to appear after the shipping confirmation is sent. Orders containing multiple items may be split into more than one package and may receive separate tracking numbers.

6. Delayed Packages

If a package has not arrived by the end of the carrier's estimated delivery window, customers should check the tracking page for an updated scan. If there has been no tracking movement for 3 full business days after the expected delivery date, contact Customer Support at support@voltedgeelectronics.com. VoltEdge will review the shipment with the carrier and provide an update within 2 business days.

7. Lost Packages

A package may be treated as lost when the carrier confirms loss or when there has been no tracking movement for 7 consecutive calendar days after the expected delivery date. After the claim is verified, VoltEdge will offer either a replacement shipment or a refund to the original payment method. If tracking shows "Delivered," customers must report a missing package within 5 calendar days of the delivery scan so VoltEdge can begin a carrier investigation.

8. Address Changes

Customers may request an address change only before the order has entered "Shipped" status. Contact Customer Support as soon as possible with the order number and the corrected address. Address changes are not assured after warehouse processing begins. VoltEdge cannot change the delivery address after a package has been handed to the carrier.

9. Order Cancellation

An order may be cancelled without charge while its status is "Order Received" or "Processing," provided the warehouse has not begun final packing. Customers can use the "Cancel Order" option on the "Orders" page when available or contact Customer Support. Once the order status changes to "Shipped," it cannot be cancelled. The customer may use the applicable return process after delivery.

10. Delivery Problems

Customers should inspect the shipping carton promptly. If the wrong item was delivered or the item arrived visibly damaged, contact Customer Support within 5 calendar days of delivery and provide the order number plus clear photos of the item and packaging. VoltEdge will provide the next steps after reviewing the report.
